- **Claimed team:** Owls Esports
- **Replay time:** 00:10
- **LAP:** 1
- **Resolution:** Racing incident
- **Justification:** The claimed driver, in an attempt to avoid a collision with his teammate, steers to the outside of the corner, causing contact with the driver alongside him. The contact occurs again during the turn, displacing the DKR driver off the racing line, though without any loss of position. Subsequently, the claiming driver accelerates multiple times and steers to the outside, which results in him leaving the track. Upon accelerating beyond track limits, he receives a 0.5" penalty. His rejoining of the circuit leads to a collision with the OWLS driver, and the application of the penalty results in the loss of two positions.

- **Claiming team:** Jokers ETeam
- **Claimed team:** Elite Racing Squad
- **Replay time:** 01:40
- **LAP:** 1
- **Resolution:** ERS\_Nixo09 +3" (L1.1)
- **Justification:** The driver of Team JKT suffers a minor and fortuitous collision with the wall, which causes a sudden closing of the gap by the driver of Team ERS, who was following closely at the time of impact. The claimed driver attempts to avoid contact and execute an overtake using the speed difference, moving onto the outside kerb. During the maneuver, and upon descending from the kerb, the ERS driver forces space by displacing the JKT driver, which is interpreted as a sanctionable action.
