

## RONDA 9 | INCIDENT RESOLUTION

1/06/2025

### BRONZE ROCKETS

#### Incident 1

---

- **Claiming team:** AGT Drivers
- **Claimed team:** Avalon Motorsports
- **Replay time:** 20:27
- **Lap:** 8
- **Resolution:** AVA\_aramando\_16 +2" (7.1)
- **Justification:** It is determined that the claiming driver was occupying a valid space on the outside of the track before the corner, maintaining a legitimate racing line. However, the driver from the claimed team gradually encroaches upon that space without leaving sufficient room, which causes a squeeze that results in a loss of time or position for the AGT driver. Therefore, the corresponding penalty is applied in accordance with article 7.1 of the regulations.

### SILVER ROCKETS

#### Incident 2

---

- **Claiming team:** Team Monza Racing
- **Claimed team:** Customs GT
- **Replay time:** 00:11
- **Lap:** 1
- **Resolution:** Racing Incident
- **Justification:** After a poor start by the claiming driver, contact occurs between both drivers. At no point does the claimed driver make any movement to provoke the contact. The claiming driver was already losing control of the car, and when accelerating fully, he completely loses it.

### Incident 3

---

- **Claiming team:** Team Monza Racing
- **Claimed team:** Maniacs Revolution
- **Replay time:** 07:34
- **Lap:** 3
- **Resolution:** Racing Incident
- **Justification:** In the host's replay, no contact is observed, nor is there any indication that the incident was caused by an error from the claimed driver. The claiming team did provide their own replay, where the contact can be seen. We establish that if the impact had been inevitable, even without visible contact, a penalty might have been applied. However, in this case, due to lack of clear evidence to assign fault, we consider it a racing incident.

### Incident 4

---

- **Claiming team:** Team Monza Racing
- **Claimed team:** Customs GT
- **Replay time:** 11:07
- **Lap:** 5
- **Resolution:** Racing Incident
- **Justification:** No punishable action is observed.

### Incident 5

---

- **Claiming team:** Jokers E-Team
- **Claimed team:** Elite Racing Squad
- **Replay time:** 21:08
- **Lap:** 8
- **Resolution:** ERS\_Alex20 +1" (L2.1)
- **Justification:** The claimed driver makes three direction changes on the straight while the claiming driver is less than 2 seconds behind.

## Incident 6

---

- **Claiming team:** Jokers E-Team
- **Claimed team:** Elite Racing Squad
- **Replay time:** 22:00
- **Lap:** 8
- **Resolution:** Racing Incident
- **Justification:** Only two changes of line are distinguished, as the last movement before entering the racing line is considered a correction.

## GOLDEN ROCKETS

### Incident 7

---

- **Claiming team:** Outplayed Racing
- **Claimed team:** Vanquish Esports
- **Replay time:** 00:30
- **Lap:** 1
- **Resolution:** VQS\_MiuMiu +5" (G4.1 + Daños -50%)
- **Justification:** The VQS driver hits his teammate from behind, causing a chain reaction that ends with OP\_Popcorn\_ off-track, losing 5 positions.

### Incident 8

---

- **Claiming team:** Vanquish Esports
- **Claimed team:** GT Spain 92
- **Replay time:** Superpole
- **Tiempo restante:** 09:39
- **Resolution:** GTS\_AntonioSK +5" (8.2.3)
- **Justification:** During qualifying, the GTS92 driver uses the START button without exiting the track and without returning to the pits, driving for a few seconds under automatic control on the way to the waiting area. Evidence of the event is available. This penalty does not deduct FP points.

## Incident 9

---

- **Claiming team:** Vanquish Esports
- **Claimed team:** GT Spain 92
- **Replay time:** Superpole
- **Tiempo restante:** 00:46
- **Resolution:** GTS\_AntonioSK +5" (8.2.3)
- **Justification:** During qualifying, the GTS92 driver uses the START button without exiting the track and without returning to the pits, driving for a few seconds under automatic control during the final lap of the superpole. Evidence of the event is available. This penalty does not deduct FP points.
